USLAW TO OFFER END-TO-END EDISCOVERY SOLUTION THROUGH PARTNERSHIP WITH D4, LLC AND LECLAIRRYAN'S DISCOVERY SOLUTIONS PRACTICE

CORAL SPRINGS, Florida (September 13, 2011) – USLAW NETWORK, through the combined effort of D4, LLC and LeClairRyan, will begin offering an end-to-end [USLAW eDiscovery Solution](#) exclusively for USLAW NETWORK members and their clients.

D4, LLC is a leading eDiscovery and Computer Forensics Service Provider whose services include; data collection, forensic investigations, data reduction and analytics, ESI processing and hosted review platforms. LeClairRyan's Discovery Solutions Practice includes access to a 250+ seat review facility and defensible processes based on two decades of experience.

Tom Groom, D4's VP of Discovery Services commented, "With this combined team, USLAW members can now go after the larger, high profile cases involving intensive eDiscovery, that normally are pursued by the AMLAW 100 firms with large, in-house ediscovery departments". "It's like each member firm now has a large, eDiscovery department of their own", Groom continued.

Bill Belt, the Team Leader for LeClairRyan's Discovery Solutions Practice, agreed: "USLAW is made up of great firms that provide superior service. Unfortunately, clients sometimes choose large firms over small and mid-size firms when the big e-discovery case comes along. The USLAW eDiscovery Solution will change that. It enables every USLAW firm to compete head to head with the big firms for any size case. It is the best of both worlds: exceptional legal services and world class e-discovery capability."

"One of our Network's distinct competitive advantages is the ability to incorporate the unique strengths and abilities of our members and corporate partners to allow these firms to serve as a turnkey solution for their clients," stated Roger M. Yaffe, USLAW Executive Director. "This is precisely what USLAW NETWORK eDiscovery Solution will do."

The offering will officially be rolled out the Fall USLAW Client Conference in Chicago on September 22 - 24, 2011. To view a quick video on the offering, click here: [USLAW eDiscovery Solution overview.](#)

About USLAW

USLAW NETWORK is an international organization of 65 independent member firms covering 47 US states, Latin America and Canada with over 5,000 attorneys. The NETWORK is comprised of AV-rated law firms throughout the United States who are part of the Network by invitation only. Member firms undergo a rigorous review process to insure outstanding quality of lawyers throughout the NETWORK. USLAW NETWORK firms are experienced in commercial and business law, employment and labor law, litigation and other business-related areas of law. All firms have substantial trial experience. USLAW member firms provide legal representation to major corporations, captive insurance companies, and large and small businesses across the United States. USLAW NETWORK is affiliated with TELFA, the Trans-European Law Firm Alliance, an international network of 25 member firms representing 600 lawyers, across Europe and ALN, the Africa Legal Network, representing 10 firms in East and Central Africa.

About D4, LLC

D4, LLC is national leader in litigation support and e-Discovery services to law firms and corporate law departments. D4 covers the spectrum of the Electronic Discovery Reference Model (EDRM), from identification and preservation of data through forensic and targeted onsite data collection; from data analytics and defensible search methodology through hosted review and production. D4 assists attorneys in litigation response planning, strategies for negotiation of scope and meet-and-confer, computer forensics, expert testimony and cost reduction practices in litigation support projects. D4 was one of the first companies to introduce an eDiscovery Managed Service Solution, called eNtrust.

Founded in 1997 and through its combination and rebranding with Doculegal, D4 has grown to a national presence. With over 100 employees, D4 has offices in Rochester, Buffalo, Tampa, Lincoln, Omaha, New York City, Grand Rapids, San Jose, San Diego, San Francisco, Denver, Washington DC and Providence, RI. State-of-the-art data center operations in Rochester are complemented by electronic discovery and litigation support paper document services throughout the United States. In 2011 D4 made the Inc. Magazines INC.500/5000 list of the fastest growing private companies in the United States.

About LeClairRyan's Discovery Solutions Practice

Since 1991, the attorneys and technology specialists in LeClairRyan's Discovery Solutions Practice (DSP) have helped clients solve document review and eDiscovery challenges. DSP's goal is to make eDiscovery a solution – not a problem.

Over the past 20 years, DSP has developed repeatable and defensible processes that leverage technologies – like concept searching, near-duplicate identification, email threading and predictive coding – to tame document review costs and increase quality. DSP has built a team of experienced attorneys and technical staff focused on the eDiscovery landscape. Since DSP professionals work exclusively on eDiscovery, they can complete the work better, faster and cheaper – and with increased defensibility. DSP offers document review services at prices that are competitive with non-law firm providers, but with something only a law firm can provide – solid legal and technical advice on the critical eDiscovery questions that can make or break a case.
