

USLAW offers what it calls the Home Field Advantage which comes from knowing and understanding the venue in a way that allows a competitive advantage – a truism in both sports and business. Jurisdictional awareness is a key ingredient to successfully operating throughout the United States. Knowing the law, plaintiff’s attorneys, the judge, and the local business and legal environment provides our firms’ clients this advantage.

Tune in as USLAW member firms share insights and boots-on-the-ground knowledge regarding the latest legal happenings impacting general business in each state and in select global markets. In each brief video clip, USLAW members will share specifics from their jurisdiction, inform on the latest state legal decisions, and outline what the landscape looks like heading into 2021 and beyond. *Make sure this home field advantage is part of your playbook.*
